

SUSTAINABLE DEVELOPMENT GOALS

17 GOALS TO TRANSFORM OUR WORLD

The UN Sustainable Development Goals (SDG) are a call for action by all countries – poor, rich, and middle-income – to promote prosperity while protecting the planet. They recognize that ending poverty must go hand-in-hand with strategies that build economic growth and address a range of social needs including education, health, social protection, and job opportunities, while tackling climate change and environmental protection. More important than ever, the goals provide a critical framework for global pandemic recovery.

To end poverty in all its forms everywhere by 2030.

To end hunger, achieve food security and improved nutrition and promote sustainable agriculture.

To ensure healthy lives and promote well-being for all at all ages.

Ensure inclusive and quality education for all and promote lifelong learning.

To achieve gender equality and empower all women and girls.

To ensure access to safe water sources and sanitation for all.

To ensure access to affordable, reliable, sustainable, and modern energy for all.

To promote inclusive and sustainable economic growth, employment, and decent work for all.

To build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation.

To reduce inequalities within and among countries.

To make cities inclusive, safe, resilient, and sustainable.

To ensure sustainable consumption and production patterns.

Taking urgent action to tackle climate change and its impacts.

To conserve and sustainably use the world's ocean, seas, and marine resources.

To sustainably manage forests, combat desertification, halt and reverse land degradation, and halt biodiversity loss.

Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable, and inclusive institutions at all levels.

To revitalize the global partnership for sustainable development.
